This magnificent 17th Century Manor house in the Sa Figuera area of Port of Soller has been beautifully renovated to the highest of standards whilst maintaining some of its original features including a genuine flour mill and 'tafona' (olive press). It has 7 bedrooms and is surrounded by 12 acres of land filled with orchards, vineyards and palm, pine and olive trees. With full air conditioning, a solar heated infinity swimming pool and small private chapel this makes a perfect location for a large family gathering or special occasion.

The interiors are a very eclectic mix, maintaining the features of the original building including pebble stone floors and ancient machinery yet having modern additions such as glass walls and air conditioning. The very contemporary furniture has been imported from Italy and the interiors are very spacious with large open areas and high ceilings and many different seating areas scattered throughout.

The kitchen and separate dining areas are on a mezzanine floor and the 7 bedrooms are located across 3 different levels. On the mezzanine level is a bedroom with a four poster bed and an en suite bathroom with tub and separate shower. On the first floor are 2 doubles and a twin, each with en suite shower rooms. A self contained apartment has 2 double bedrooms each with en suite shower rooms and these share a living room, kitchen/diner and large private terrace. The original olive press has a mezzanine bedroom with double bed and en suite shower room.

The 10 x 5 metre solar heated infinity swimming pool complete with outside shower and decked terrace with partly pergola covered terrace is a delight offering magnificent views of the countryside with the only audible sounds being bird song and sheep bells.

Please note that because of the bumpy road leading the property access with a sports car is inadvisable. This is a truly beautiful property in tranquil and private setting offering both luxury and comfort.
