

ROYAL-VILLAS-EUROPE

from where you are . . .
to wherever you want to be

This and its sister-villa are two beautiful brand new properties located on a private complex above Glyfadi bay, on the South-western point of Mykonos. The two glamorous homes distinguish themselves for their unique décor, the stunning location and the possibility to be rented together for large groups while still granting privacy one from the other.

A fresh and innovative atmosphere dominates outdoors through the original paving of the terrace and the ingenious concept of the pebble covered infinity swimming pool surface, which also includes a built-in Jacuzzi. The pool terrace also offers options of leisure and relaxation with its large shaded lounge area, simple yet appealing outdoor dining and BBQ area.

In full respect of the traditional Mykonian design, the interiors display a strong predominance of white from washed wooden floor to beamed ceiling, which is interrupted only by the designer furniture and adornments that through their tasteful touches complement the interior of this great home.

The interior layout includes a modern design well-equipped kitchen, an open plan living/dining area and a guest bedroom with private terrace. The lower level features four additional bedrooms, all granting access to a furnished terrace. Through this terrace one can access the villas studio with private entrance, available upon request. All bedrooms are appointed with great taste and novel concepts, each assuring a quality experience also indoors.

Views over the Aegean sea are enjoyable throughout the villa thanks to the presence of large windows and the overall waterfront position of the villa.
