This is more than a luxury 3 bedroom apartment - it's a masterpiece of contemporary design. From its open plan living areas to its carefully selected modern art pieces, this home sets the scene for a glamorous vacation. With the heart of Biarritz just two stories below, the location couldn't be better.

Even the smallest details were attended to when renovating the apartment. The open living area boasts a dining table with seating for ten, plush leather furnishings, and a brand-new entertainment system. The recessed lighting casts a dramatic glow along the walls, and bold floor-to-ceiling windows frame dazzling views of historic landmarks like Sainte Eugenie Church, the Hôtel du Palais, and the harbor. You can also take in the city from the balcony, which stretches around two sides of the apartment.

Move into the master bedroom, and you'll find a luxurious retreat complete with an Italian shower, marble his-and-her sinks, a walk-in dressing room, and balcony access. The two guest rooms share a spacious bathroom with marble countertops, an Italian tub and sink, and a towel warmer. In addition to all this, the rooms feature hardwood floors, air conditioning and hotel-quality linens.

As the views suggest, the apartment makes the perfect home base for exploring Biarritz. The beaches, wharf, aquarium, and casino are all just a short walk away as well as numerous restaurants, bars, and cafes. In the mood for dining at home? Stroll down the street and you'll find local fish, produce, bread, and meat at the fresh market "Les Halles". The brand-new and fully equipped kitchen makes cooking a delight.

This is an ideal property for a small family or group of friends.
