

Mykonos

Agrari Beach

Ref GLI135

- 4 BEDROOMS
- 5 BATHROOMS
- PRIVATE SWIMMING POOL WITH SPA
- PANORAMIC SEA VIEWS
- 900 METRES FROM AGRARI BEACH

This charming 4 bedroom property finds space in one of the most characteristic and nature-immersed areas of Mykonos, where the hills of Agrari gracefully descend into the waters of the Aegean sea on the southern side of the island. The property enjoys a privileged and private location with direct views over Agrari Beach and the island of Naxos while being within easy reach of the beach itself.

Views and nature are both present in the outdoor area of the villa where a large live rock plays a central role in the front terrace. The stylish bean-shaped pool enjoys a panoramic position and provides the soothing experience of a built-in spa positioned in a “front row” position overlooking the sea. Two distinct pergolas each provide shade for both lounging and dining options appointed with cosy cushions and summer furniture.

The property is divided amongst two separate units each with their own living spaces and accommodations. The main house is mainly developed on one level, the entrance one, where the airy living room, a charming kitchen, the master bedroom and a guest bedroom – both en-suite – find their respective spaces and boast a very unique décor combining wood-based furnishing with the traditional traits of Cycladic architecture. A guest suite is also part of this main unit but enjoys great privacy and splendid sea views thanks to its detached and elevated lateral position above the main house.

The house benefits from full air condition except the lower guest house bedroom, Wi Fi, satellite TV as well as a B&W sound system.

It is just 900 metres from the popular Agrari beach, 7km from Mykonos Town, 5km from the airport and the nearest shop is 4km away.
