Located uphill in a unique wind-sheltered position in the Fanari area, this charming villa enjoys one of the most panoramic and beautiful views of Mykonos. It overlooks the Aegean archipelago including the islands of Tinos, Syros and Delos with its magical sunset. The property consists of four buildings: the main house and three separate guesthouses. The style and feel of this property is special. It combines a typical

Cycladic architecture with some country house Provencal style gives this property a unique charm and remarkable appeal. The infinity swimming pool enjoys panoramic views and features a built-in spa for relaxation. The outdoor setting is very well decorated and furnished with antique wooden pieces and there are several terraces and pergolas.

The main entrance of the house leads directly to a beautiful open plan and country style kitchen, which is fully equipped. The living room is bright and cozy with stunning views from the many windows. The master bedroom, on the upper floor, has a small private roof terrace and a well-appointed en-suite bathroom. On the lower floor are three guest bedrooms, one a single, each in different pastel colors, with their own en-suite bathroom and direct access to a large outdoor terrace, which is perfect for entertaining children.

Three beautiful detached guesthouses, both on two levels, complete the property. One is located below the pool and main patio, comprising a large double bedroom and a single bedroom sharing a bathroom. The second guesthouse, located above the main house, features a double bedroom with private terrace, kitchenette and en suite bathroom.

The third guesthouse with sea views is also located above the main house. The large suite features a small but cozy living room with kitchenette, in addition to a comfortable double bedroom and bathroom.

This is a wonderful and tranquil property for a large group yet offering plenty of space and independence.
