Overlooking the entrance of Ornos Bay these three beautiful, identical 4 bedroom attached villas are only metres away from the sea-front and a secluded cove harbouring private yachts and sailing boats. Sharing a luxurious garden of blooming flowers, with an extra large swimming pool, 17x8 metres, and surrounded by wooden decking, both houses enjoy wonderful sea views from the many rooms and terraces. The pool area has modern, stylish sun chairs and outdoor fittings. The properties share a private entrance with security gate, and each has individual parking for guests.

The outdoor patio features a lovely pool side pergola providing a large outdoor dining area, ideal for entertaining. The house interiors have wide living spaces comprising an open-plan style kitchen with all modern appliances. The dining and living areas are divided by a few steps giving a more individual layout and have satellite television and CD players. The properties' overall interior style is modern and chic with lovely artwork and comfortable stylish furniture. All bedrooms are very large and well-appointed with many built-in wardrobes and own modern en-suite bathroom. Top floor bedrooms have a private veranda whilst the lower floor bedrooms have direct access to garden and pool area. The villas each have their own sun beds and BBQ area, either traditional wood fired or American and gas.

Large families or group of friends requiring three adjacent properties will find this a perfect solution, with no loss of comfort, space or privacy. The villas have the same layout with one master bedroom with double bed & en-suite bathroom with tub; one bedroom with twin beds & en suite shower room on the top floor and two large bedrooms with double beds, en-suite bathrooms and kitchenette with sitting area on the lower floor. Each bedroom has access to a private veranda or garden patio.

These are extremely well appointed and maintained properties.
