Perched just above Super Paradise beach, the new 4 bedroom villa is a prime example of modern design applied to provide great comfort in a stylish atmosphere.

The spacious pool terrace covers the entire front of the property and the private swimming pool, with its unique structure, is located in the most panoramic position of the terrace with its infinity edge directly overlooking the golden sands of Super Paradise beach. The two large pergolas are located on each side of the pool, one with clever summer furniture for relaxing and one with the formal outdoor dining area equipped with a marvelous wooden dining table and an aptly placed wood-fire BBQ which reflects the design of the property with its long chimney.

Indoors the extensive use of glass gives guests a chance to marvel at the impressive views right away through the window ingeniously placed just above the free standing wooden staircase leading down to the living room. Light is definitely a main factor in the architecture of given the presence of numerous glass doors to the front end of the living room in addition to the two glass panels covering a further light source to the back of the kitchen, which is directly included in the spacious living room. The kitchen will prove to be the favorite spot of those fond of cooking with its long island and modern appliances. A formal indoor dining area is located just to the right of this space with an elegant dining table.

The master bedroom is located on the same level as the living room and opens directly onto the pool terrace via French doors. Two guest bedrooms are situated one across from the other in the entrance hall of the property. On this same level but completely independent from the main house is a further guest bedroom. All bedrooms on this level access ample terraces with sea views. All bedrooms feature superb fittings and elegant materials, which combined with the vast space, assure great comfort throughout.
