This modern 6 bedroom villa is situated in the hills above Calla Bassa in private gated gardens with spectacular views over the trees to the sea. Recently constructed by its architect owner every detail has been well thought out from the full air conditioning to the floor to ceiling glass walls.

The ground floor contains the open plan split level living areas with lounge, dining area and kitchen/breakfast area. The floors are of polished concrete and the entire area is very light and airy because of the huge windows.

Also on the ground floor are two bedrooms, one twin and one double each with their own bathrooms. The first floor houses another bedroom, this one a double with its own terrace and bathroom. One the lower ground floor are three further bedrooms, all twins with en suite shower rooms.

There are several terrace areas outside, one with a summer kitchen and barbeque, another with covered dining terrace with teak furniture and the infinity pool with its wooden jetty.

The property is extremely private, tranquil with lovely sea views and is an ideal vacation villa. Only 10 minutes from the nearest beach of Cala Comte and 10 minutes from shopping and restaurants at San Josep.

The airport is a 25 minute drive away.
