This lovely 6 bedroom villa is set in ten acres of protected forest on a cliff above Cala Salada. The house is a modern gem, hidden in a secluded valley. Accessed from the beach via a windy dirt road, the villa is completely private and gated with the most breathtaking views of the sea and islands beyond. This location is the perfect retreat for watching sunsets, relaxing by the pool, and taking walks in the beautiful wild countryside surrounding the property.

The villa is very modern and light in feel, with modern paintings and sculptures decorating the walls. The open plan living and dining room has vast floor to ceiling glass sliding doors overlooking the pool and patio area. The fully equipped kitchen has modern appliances including American style fridge, gas stove and dishwasher. An additional fridge and washer dryer are located in the garage. There is a long wooden trestle table for dining in the kitchen as well as other indoor and outdoor dining areas.

The master bedroom on the upper level has its own terrace overlooking the sea, as does the bedroom below it. Two additional double bedrooms are in the main house. A guesthouse has two bedrooms sharing a bathroom. There is a single childrens bedroom adjacent to the master suite. If needed an additional twin bed can be added.

Cala Salada, named as Europe's second best beach, is surround by pine forested hills. This protected little sandy cove is a favourite for residents and private boat owners. Turquoise waters and large rock formations bring swimmers and sunbathers flocking. A typical Spanish restaurant and bar is located at the end of the beach.
